

Seabata Enoch Lebabo

Academic Curriculum Vitae · April 2026

Anand, India 388120 · enochlebabo@gmail.com · +91 6359289443

Education

Bachelor of Engineering, Information Technology (2022 – 2026)

BVM Engineering College (Affiliated to GTU), Gujarat, India · Expected: 08/2026

Publications

Lebabo, S. E. (2026). *Smart Automated Food Delivery Ecosystem: A Scalable Monorepo-Based Architecture with Augmented Reality and Firebase Integration*. **International Journal of Novel Research and Development (IJNRD)**, Volume 11, Issue 4, April 2026. [View Published Paper](#)

Research Experience

- Designed and validated a scalable real-time system integrating Flutter monorepo architecture with Firebase cloud backend.
- Applied concepts from distributed systems, data structures, and mobile computing to achieve ~180ms synchronization latency.
- Demonstrated measurable improvements in scalability (10,000+ concurrent users), code reusability (45%), and AR rendering performance (60 FPS).
- Implemented Augmented Reality (ARCore/ARKit) for product visualization to enhance end-user decision-making.

Professional Experience

Flutter Developer · Technoguide Infosoft Pvt. Ltd, Anand, India · 06/2025 – 07/2025

- Developed and maintained Flutter mobile applications from concept to deployment.
- Integrated RESTful APIs and managed application state using modern state management libraries.

Django Developer Intern · Technoguide Infosoft Pvt. Ltd, Anand, India · 06/2024 – 07/2024

- Built and maintained Django-based web applications within an agile framework.
- Optimized performance and authored technical documentation for new features.

Selected Projects

- **Smart Automated Food Delivery Ecosystem** — Flutter monorepo, Firebase, AR (ARCore/ARKit). Published in IJNRD, April 2026.
- **Sign Language Detection System** — Real-time gesture interpretation using TensorFlow/Keras.
- **Retinal Diagnosis using Deep Learning** — CNN-based disease detection from retinal scans.
- **Full-Stack E-Commerce System** — Django, PostgreSQL, REST API.

Certifications

- Fullstack Development (Udemy)
- Information Security Fundamentals (Udemy)
- Advanced Flutter Development (Udemy)
