PROFESSIONAL SUMMARY

Final-year Bachelor of Technology (Information Technology) student with strong foundations in Software Engineering, Cloud Computing, Enterprise Infrastructure, Networking, Information Security, Data Analytics and Artificial Intelligence. Published researcher with practical industry experience in Flutter, Django, Firebase and scalable cloud-based systems. Demonstrated ability to develop real-time applications, collaborate in agile environments and solve complex technical challenges. Seeking to contribute technical expertise, innovation and leadership potential within a global technology organisation.

EDUCATION

Bachelor of Technology (Information Technology)- BVM Engineering College (Affiliated to GTU), Gujarat, India

Graduation: June 2026

Relevant Coursework: Data Structre, Software Engineering, Computer Networks, Information Security, Cloud Computing, Database Systems, Artificial Intelligence, Machine Learning, Advanced Python, Dot Net, Java, OS, Data Warehousing And Data Mining, Big Data Analytics and visualisation, Mobile Application Development.

PROFESSIONAL EXPERIENCE

-Flutter Developer (Industry Project Collaboration) – Venom Technologies Pvt. Ltd. (Dec 2025 – May 2026)

- Developed scalable Flutter applications using Dart.
- Built User, Driver, Restaurant and Admin platforms.
- Integrated Firebase Authentication and Cloud Firestore.
- Implemented Google Maps APIs and GPS tracking.
- Developed real-time order synchronization.
- Built analytics dashboards for operational insights.
- Contributed to architecture supporting 10,000+ concurrent users.
- Collaborated within Agile development processes.

-Flutter Developer Intern – Technoguide Infosoft Pvt. Ltd. (Jun 2025 – Jul 2025)

- Developed and maintained Flutter applications, integrated REST APIs, collaborated with UI/UX teams, and improved application performance.

-Django Developer Intern – Technoguide Infosoft Pvt. Ltd. (Jun 2024 – Jul 2024)

- Developed Django web applications, assisted backend maintenance, optimized responsiveness, and participated in Agile development.

RESEARCH PUBLICATION

Smart Automated Food Delivery Ecosystem: A Scalable Monorepo-Based Architecture with Augmented Reality and Firebase Integration. Published in International Journal of Novel Research and Development (IJNRD), Volume 11, Issue 4, April 2026.

Research focused on scalable distributed systems, Flutter monorepo architecture, Firebase cloud infrastructure and real-time synchronization.

TECHNICAL SKILLS

Programming: Python, Dart, JavaScript, TypeScript, SQL, Java, C, C++, Dot Net

Frameworks: Flutter, Django, React, TensorFlow, PyTorch, OpenCV

Databases: PostgreSQL, MySQL, Firebase

Cloud & Infrastructure: Cloud Computing, Firebase, Distributed Systems, REST APIs

Tools: Git, GitHub, Android Studio, VS Code, Postman, PyCharm, Figma, Xcode.

Networking & Security: Computer Networks, Information Security, Access Control Fundamentals

PROJECTS

Retinal Disease Diagnosis Using Deep Learning models

Sign Language Detection System

Full Stack E-Commerce Platform.(django)

CERTIFICATIONS

Information Security in Python – Udemy

Full Stack Web Development (15 Projects) – Udemy

The Complete Flutter Development Bootcamp with Dart – Udemy

Flutter Multi Vendor App Development – Udemy

Advanced Flutter Development – Udemy

LANGUAGES

English – Fluent

Sesotho – Native

Zulu – Intermediate

Hindi – Intermediate (B1)

Gujarati – Intermediate (B1)
